A composite image featuring a woman on the left and a man on the right. The woman is smiling and looking upwards, wearing large black over-ear wireless headphones. The man is shown in profile, looking forward, wearing small black wireless earbuds. The background is a blurred urban setting. The text 'WIRELESS HEADPHONES/EARBUDS' is overlaid in white, bold, sans-serif font across the middle of the image. An orange horizontal bar is at the bottom.

Glossary

Bluetooth wireless technology

Allow you to get help from Google hands-free, making them the perfect companion to stay connected when you're on the go.

Noise Canceling technology reduces unwanted ambient sounds and allows you to fully enjoy or concentrate on the music/sound in headphones

High-resolution audio is generally used to refer to music files that have a higher sampling frequency and/or bit depth than that of a CD, which operates at 44.1 kHz/16-bit

"K2 Technology" is a JVC KENWOOD technology that enhances sound quality of digital sound sources

aptX™

Qualcomm® aptX™ audio delivers high wireless sound quality comparable to wired sound.

aptX™ Adaptive

aptX Adaptive promises high resolution, uninterrupted audio that simply works, delivering a premium and robust solution.

aptX™ HD

Qualcomm aptX HD was designed for high resolution audio. This enhanced codec supports 24-bit music quality over Bluetooth. This means listeners can hear even the smallest details in their music.

Swivel/foldable design for better portability

Pivot Motion Fit for securer fit

Allows ambient sound with open type earpieces for safe run on the road

Memory ear foam

The volume limiter reduces sound to 85dB/1mW.

Full touch control operates all functions

3-Point support structure for securer fit

Smart cable management with magnetic housing

Remote and microphone for smartphones

JVC Headphones Manager: Support app for HA-ET90BT to check remaining battery, find the unit when it's lost, and select sound modes.
